## Troop Business

1. Propose looking at the bylaws, making amendments to update them.
2. Propose the troop purchase a digital camera for use by historian. This will be helpful as the pictures would be ready for website.
3. Propose an open house for incoming scouts and parents. This would be a great time for committee and parents to get familiar.
4. Continue with ideas for equipment identification.
5. The scout house computer has trouble getting connected with church wireless. Do we need bigger receiver or cable to position closer?
6. Propose we look at fundraisers that will support Jamboree 2010 specifically. This would benefit those boys who choose to go.

## Notes

The Troop seems to be doing very well. Thank you leaders and committee for making it a success. We have been making equipment purchases and preparing our unit for the boys who will be crossing over soon. If anyone should ever have questions or concerns please allow me as chairman to help! Also remember to use the website for dates of events and committee meetings.
